Brute strength has its place, but not to the point of damage. The A/E logistic track in your trailer can be ripped out or the side walls can be buckled if too much tension is put on the ratchet straps. Ancra's new Torque-Limiting Ratchet Buckle will now end that worry!

Get a handle on trailer damage

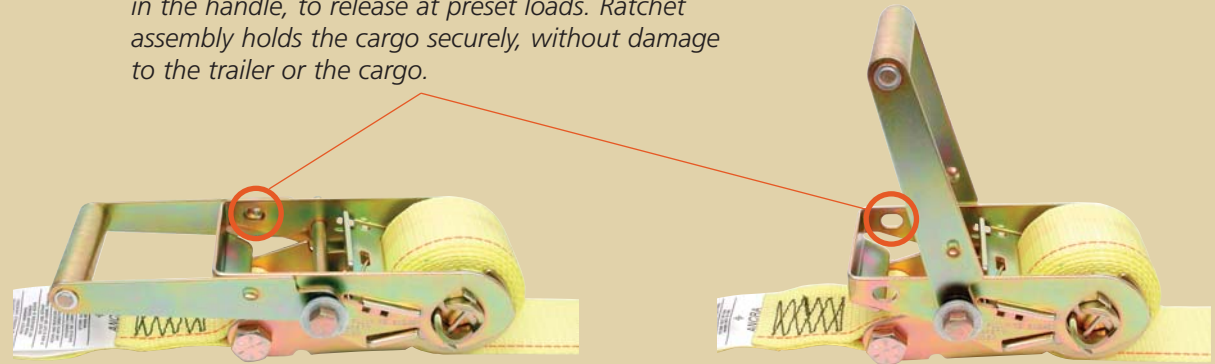

Enough strength to hold the cargo, not enough to do damage

Ripped out logistic track or buckled side walls caused by overzealous tightening of the ratchet buckle is a thing of the past. With the Ancra Torque-Limiting Ratchet Buckle, over-tightening just can't happen. It will tighten to 300 pounds of torque, and no more. It's enough force to secure the cargo but not enough to damage your trailer. Not even your strongest drivers can apply too much force.

How it works

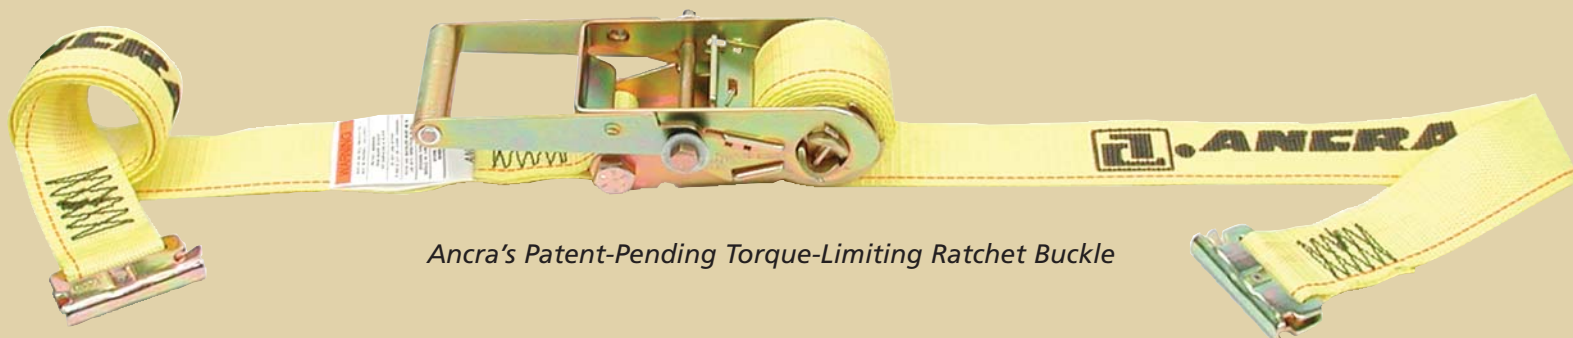

Once the strap is installed in the track, ratchet the strap normally. When proper tension is reached, the handle releases and no more tension can be applied. No matter how zealous you ratchet, you can never go too tight.

Ancra's patent-pending design incorporates detents in the handle, to release at preset loads. Ratchet assembly holds the cargo securely, without damage to the trailer or the cargo.

There are six Torque-Limiting Ratchet Buckle Straps available, one for every cargo requirement.

Part No.	End Fitting	Length	Breaking Strength	Working Load Limit	Weight	Webbing
Series E Torque Limiting Ratchet Buckle Strap w/Spring E Fitting						
48672-33	47608-21	12'	3000	1000	4.0 lbs.	Yellow 4,500 lb polyester
48672-34	47608-21	16'	3000	1000	4.1 lbs.	Gray 4,500 lb polyester
48672-35	47608-21	20'	3000	1000	4.2 lbs.	Blue 4,500 lb polyester
Series E Heavy Duty Torque-Limiting Ratchet Buckle Strap w/Spring E Fitting						
49021-30	47608-21	12'	3000	1000	4.5 lbs.	Yellow 12,000 lb polyester
49021-31	47608-21	16'	3000	1000	5.0 lbs.	Yellow 12,000 lb polyester
49021-32	47608-21	20'	3000	1000	5.5 lbs.	Yellow 12,000 lb polyester
