

INTRODUCING ANCRA'S REVOLUTIONARY NEW ERGO 360 WINCH BARS

ErgoBar™
A NEW ANGLE
ON THE WINCH BAR

THE SOLUTION YOU'VE BEEN WAITING FOR

**A HANDS
DOWN SURE
WINNER!**

The Ergo 360 Bar is simply a better alternative to standard winch bars. The patented ergonomic design keeps the handle and tip in parallel alignment and in your "Power Zone" making it safer and easier to use.

- Easily rotated to almost any angle to provide the leverage needed to tension a strap
- Offset design eliminates need to use bar at extreme upward or downward angles
- Reduces risks associated with bar slipping from winch or hands slipping from bar
- Standard mushroom tip keeps bar securely in winch cap
- Can be rotated 360 degrees to accommodate various clearance requirements

*Available in standard and
box end combination styles.*

ANCRA'S New ERGO 360 Winch Bars with their unique shape offer features that make them the best, most versatile in the industry. Here's what drivers who have tried them are saying:

Unique bend -

- "No need to remove the bar when the winch is just beneath the side rail, just twist the bar for a better angle and more leverage, less effort to tighten or loosen the winch strap"
- "The bar won't roll away when laying on high arched aluminum trailers"

Handle Design -

- "The grip and bellowed end of the handle helps keep hands from sliding off the bar"

Mushroom Tip -

- "Eliminates the risk of the bar slipping out of the winch cap"

Balance -

- "The bar feels natural and easier to carry and handle when grasped near the bend"
- "Safer with less chance of injury"

Overall -

- "Just Love the Bar", ERGO is above anything we have ever used"
